To Whom It May Concern:

I've been listing my information on EnviroYellowPages since 2004 and recently decided to list NSSI Environmental on their website.

A few days later Joe contacted me with a statement that sounded too good to be true: "I can get your website ranked on the first page of Google." I get offers like this all of the time and was somewhat skeptical. At first. The strategy he presented made sense and I told him to give me a week to think about it. After a week, I made the decision to move forward and I've been more than happy with the results since. His strategy had us ranking on the first page of Google for various search terms within one week. Typically, you have to wait a few weeks to see ranking sticks, but to date we are still climbing up the ranks.

I cannot stress enough how valuable this service has been for our company and look forward to working with Joe (and EYP) for many years to come.

Best regards,

Paul Foster
